Welcome to Pococare's Life-Saving Network!

Dear Valued Subscriber,

Warmest congratulations on becoming part of Pococare's Emergency Readiness service. Your safety is paramount to us, and we're thrilled to welcome you to our community. Below is a step-by-step guide to help you maximize the benefits of your unique QR code. Keep this code accessible, as it will be your rapid response companion in critical situations.

Step 1: Stick the QR Stickers Right Away!

Place the Pococare sticker in easily accessible spots like your refrigerator, car, or two-wheeler. Should you require additional stickers, don't hesitate to get in touch with us – we're here to provide the assistance you need.

Step 2: Keep Your Profile Up-to-date

Ensure your personal details, emergency contacts, medical history, and insurance information are always current. Your PERK (Pococare Emergency Ready Kit) functions as your dynamic digital document. Maintaining accurate information is pivotal to ensuring prompt aid when needed.

Step 3: Responding to Emergencies

Your well-being is our top priority. In case of a genuine emergency: Stay calm and guide someone to scan your QR code or dial the Pococare emergency contact number. Having your QR code prominently displayed significantly aids in obtaining assistance.

In the event of an emergency, anyone can either scan your QR code or call our emergency contact number: **<080-45574270 / 69808950>.**

Upon scanning or calling, our Pococare Heartbeat team springs into action.

We meticulously manage three crucial steps:

1. Notify your designated emergency contacts.
2. Connect you with a doctor for expert guidance.
3. Coordinate the dispatch of an ambulance to the nearest hospital.

We extend our heartfelt gratitude for entrusting Pococare with your safety.

If you require any assistance, don't hesitate to reach out to our dedicated support team at **support@pococare.com** or call **<080-37836683>.**

Welcome to a community committed to safeguarding lives. We eagerly anticipate your journey with us.

Wishing you health and security,

Warm regards,
Pococare Heartbeat Team
